

Metropolitan Golf Club

Cape Town, South Africa

OnCourse™ Profile at: www.golfenvironment.org/clubs/Metropolitan-Golf-Club

Putting our golf club OnCourse™ is a pledge to become GEO Certified™ - meeting comprehensive, credible criteria and striving for continual improvement around sustainable golf. Performance across the following Action Areas will demonstrate that our club is committed to operating sustainably and playing its part for the environment and local community.

LANDSCAPE & ECOSYSTEMS Golf supports healthy and attractive landscapes. Our course will contribute to ecological richness and support healthy recreation.

PRODUCTS & SUPPLY CHAINS Local decisions can have global implications. Careful selection of products and services ensures a fair deal for business and our planet.

WATER Decisive action is required to conserve the planet's most precious commodity. Our golf club is committed to operational efficiency.

ENVIRONMENTAL QUALITY Golf can improve air, soil and water quality. Our club is committed to generating a positive environmental impact.

ENERGY & RESOURCES With traditional sources peaking or declining, embracing sustainable energy is both desirable and increasingly viable for golf.

PEOPLE & COMMUNITIES Embracing people of all ages, races and beliefs. Our club will contribute to careers and education, health, recreation and infrastructure benefits.

Marthinus Jacobs, General manager

Anthea van Breemen, Environmental
Management Systems

The Golf Environment Organization is dedicated to helping the global golf community embrace sustainability and demonstrate leadership in environmental enhancement and social responsibility. As an international non-profit, GEOs work is made possible through support and input from a wide variety of stakeholders.

GEO Certified™ is golf's sustainability ecolabel, endorsed by many golf and environmental bodies worldwide as the most credible and comprehensive certification for golf.
